SICURA

Steel-toe safety footwear, made in Kanpur, India.
2026-27 range · 20 styles

Made in Kanpur. Trusted in 10+ countries.

AGS Safety Equipments India has made safety footwear in Kanpur for more than 22 years. The factory turns out one million pairs a year, from steel-toe work boots to military boots, and we were the first in India to receive BIS accreditation for the Para-Military Tactical Boot. We work with importers in bulk, as OEM and private label.

Our brand SICURA is our own brand name. AGS Safety Equipments India makes every pair in Kanpur and supplies it from India under the SICURA name.

CUTTING
Leather, microfibre and textile uppers.

STITCHING
Panels, linings and toe puffs.

SOLING
PU injection, DIP PU, vulcanised, cemented.

FINISHING
Lasting, cleaning and packing.

LAB TEST
Raw material and in-process checks.

Made by skilled hands.

Cutting and stitching, all under one roof in Kanpur.

STITCHING

CUTTING AND PREP

Every pair passes many hands.

STITCHING LINE

Where the sole is made.

A rotary PU injection line, the machine behind our dual-density soles.

Four ways to make a sole.

PU injection

DIP PU rubber

Vulcanised rubber

Cemented construction

Rotary PU injection line shown.

Tested in our own lab.

Raw materials are tested strictly on arrival and again during production, on our own equipment. Finished shoes are tested too.

ABRASION AND WATER-PROOFNESS

Read the spec. Know the shoe.

Every style in this catalogue is described by the same four parts.

Lining

Spacer mesh

Upper

Forest print leather

Toe cap

Steel

Sole

Dual-density PU

Upper

The outer material. Print leather and suede are grain-finished hides. **Microfibre** is an engineered leather alternative. **Textile 5D** is a knitted fabric.

Lining

Spacer mesh is an open 3D fabric that lets the shoe breathe. **Foam** lining adds padding around the foot.

Toe cap

Steel on almost every style. The knitted sport shoe uses an aluminium cap.

Sole

DID is a dual-density PU sole. **PUR** is PU with a rubber outsole. **EVA / rubber** is a foam midsole with a rubber outsole.
